A Woman's Discovery.
"Another wonderful discovery has been made
and that too by a lady in this county. Disease
fastened its clutches upon her, and for seven
years she withstood its severest tests, but her
vital organs were undermined and death seemed
imminent. For three months she coughed in-
cessantly and could not sleep. She bought of
a bottle of Dr. King's New Discovery for
consumption and was so much relieved on tak-
ing the first dose that she slept all night, and
with one bottle has been miraculously cured.
Her name is Mrs. Louisa Lane." Thus writes
W. C. Hamrick & Co., of Shelby, N. C.—Ge-
free trial bottle at J. Young's drug store.

SPECIAL DISPATCHES TO PROSPECTOR.

Anniversary.

PHENIX, August 8.—The re-union of
the survivors of the flood of 1890 is
being held in this city. Speeches are
being made and stories related of the
time when the San Pedro river was not
navigable and ocean steamers were
obliged to unload their freight for
Tombstone at San Francisco. Captain
Harwood, of the Walnut Gulch Canal
Company, responded to the toast, "No
Mail," in a feeling manner.

The following toasts will be
offered to-night: "His Honor," Prince
Monmonier; "Old Modoc," C. D. Gage;
"The Governor's Bottle," Jas. Geary;
"Our Water Works," Tom Atchison;
"Disincorporation," R. W. Wood; "Me
and Us," G. W. Swain, "The
Coming Boom," M. D. Scribner; "Be-
low the 600," Charles Leach; "How
Voters Lie," C. G. Johnston.

Stock Boom.

St. Louis, August 8.—Combination
stock went a kiting this morning up-
on receiving a dispatch from Tomb-
stone that the cross-cut on the 3000-
level of the Emerald had run into a
body of rich sulphurets. Ex-Governor
Balford, who is here, immediately tele-
graphed his agents to put another story
on top of the Hotel Continental. This
will make this building thirteen stories
high and within one of the Prospec-
tor building, which is fourteen.

Missionaries.

PHENIX, August 8.—The meeting of
all those interested in the reformation
of society in Arizona resulted in the
organization to-day of a protective as-
sociation. The following officers were
chosen for the ensuing year: Howard
Withrow, president; Frank Leslie, vice
president; James Daly, second vice
president; secretary and treasurer,
Tom Forget.

On Deck.

Egypt, Aug. 8.—Fighting began this
morning between the two armies which
have been resting on their arms for
two days. Captain Ford with his
Tombstone militia distinguished him-
self by cutting a swath through the
enemy's lines and planting the stars
and stripes on Fort Aguglies.

The Races.

CHICAGO, Aug. 8.—President Tim
Griffith announced to-day that a spe-
cial train from Tombstone was to have
been here with his filley, "Cora Van
Tassel" but the washouts along the

road prevented the train from getting
through. Races postponed.

Indicted.

WASHINGTON, August 8.—The mail-
ing clerk of Tombstone Daily and
Weekly PROSPECTOR was indicted yes-
terday by the United States grand
jury for swearing falsely to the cir-
culation of that paper. He swore to
131,892, when the books showed but
131,890.

Census Items.

WASHINGTON, Aug. 8.—The census
supervisor of Arizona gives the pop-
ulation of that Territory at 49,000.
There is great indignation among the
owners of land there, who assert that
another cipher should be added to the
supervisors' figures.

At Death's Door.

NEW YORK, Aug. 8.—The death of
Kemmer, who was murdered ten
years ago is momentarily expected.
He was given a farewell look at his
heart and liver this morning and re-
cognized them both.

Cattle Market.

KANSAS CITY, Aug. 7.—The Live
Stock Indicator reports:
Cattle—Receipts 4550; shipments
1000; market is steady; Steers
3.00@4.25; cows, 1.75@2.25; stockers
and feeders, 2.70@3.00.

Victorious Kirlow.

NEW YORK, Aug. 8.—The Universal
Exposition opened this morning. The
display of fruits is especially fine. Jos-
iah Kirlow took the first money for
the best display from the west.

Metals.

NEW YORK, Aug. 7, 1890.
COPPER—Nominal; Lake, Aug.
\$17.10.
LEAD—Steady; Domestic \$4.48.
TIN—Steady; Straits, \$21.10
SILVER—No quotation.

Metal Market.

NEW YORK, Aug. 8.
Gold—Stagnant, 92.
Silver—Strong, 2.30.
Copper—Rocky, 48.
Tin—Out of market.

Copper and Copper Goods.

The situation is not materially
changed in respect to copper since
last report. The producing compan-
ies hold out firmly for 17¢, but Lake
Superior ignots have been sold a
shade less. An advance in casting
copper is looked for. Locally, Balti-
more ignot, command 15¢ in cash
lots and the demand for manufactured
copper is only fair. Copper goods
and brass are firmly held at the ad-
vanced prices recently noted and no
reaction is in sight.—Hardware Re-
porter.

A German scientist says "we may
reasonably hope to make the fiber of
wood a source of human food." If our
washouts continue for any length of
time, starvation may stare us in the
face and experiments on our wood
piles will be in order.

The mail went down on a horse this
morning instead of by stage, as is the
usual custom. A light mail came in
from Bisbee last night and the wires
over there were working in good
order.

A WEEK has rolled by with a catch-
as-catch-can style of a mail service
which will give, if it continues for any
length of time an idea of the days
when railroads were not carrying
mails into Arizona, and heavy rains
affected but the few freighters on the
road. This state of affairs, did it ex-
ist at the present time would not be
a pleasant one, but doubly so is the
thought that we have every means at
our disposal for the rapid transpor-
tation of mails and express and that the
elements at times will not allow us
any better service than the days of the
bull team and pony express. Those
who have moved to Tombstone since
the advent of the railroad, can appre-
ciate in a small way, what the pioneers
went through ten years ago.

Many persons who have stopped at
the railroad hotel at Yuma, have re-
marked that the fish served at the
meals were very choice and fresh,
thinking of course that they were
shipped on ice from California. This
however is a mistaken idea. They
are caught in the Colorado river and
are what are known as "Colorado river
salmon." They are of firm texture
as to their meat and very sweet. They
are caught with a hook and line in
large quantities by the Yuma In-
dians.
